Subject: You are not representing those who have put you in
Mr. Powell –

RECEIVED

MAR 26 2004

Federal Communications Commission
Office of the Secretary

It is an understatement to say you are not representing
Those who helped put you in office.
It is very apparent you are representing big business and the
Lawyers you use to answer your emails.
I will make sure and let the folks in the Northeast Texas Area
Know that you are still supporting the roll out of the BPL project
And you are not following the reports of proven interference to
Multiple agencies and services that use the RF Band to provide communications.
You are helping to create a dangerous and unstable RF environment.

It is becoming very clear that you are representing Big Business Interest and not the public you are suppose to serve.

Mr. Powell
You greatly disappoint me and the public you are suppose to represent and protect the interests of.
